Alice and Marian, please note the draft data from the NJDEP 2004 Routine Monitoring Program for Toxics in Fish has been posted on the following website:

www.FishSmartEatSmartNJ.org

This includes marine and estuarine fish and shellfish (e.g., blue crab) data for the Passaic River and Newark Bay complex. The data are being used to develop the 2006 Fish Consumption Advisories and support other programs within NJDEP.

These data should be considered draft and are subject to change until final quality assurance procedures are complete.

Please contact Bruce Ruppel (Bruce.Ruppel@dep.state.nj.us) or myself if you have any questions.

Regards,

Gary
